Tackle Box Breakdown

Item	Units	Specific Details
Bobbers	6	Floats on water's surface and shows when a fish is biting by bobbing in the water
Hooks	12	Attached to the end of the line on the rod. Used to attach bait for the fish to bite
Split Shot	5*	Attached at the end of the line on the rod above the hook to help the hook sink down into the water
Jigs	4	A type of lure that sinks in the water. You use a jiggling motion to attract fish
Soft Bait	10	Attach to the jig. This completes the jig lure. The soft body makes an eye catching motion in the water as you jig the line

*We use lead-free split shot to be environmentally safe.
